Subject: Information for Tejon & Black Rock Quarries, M/027/087 & M/027/088,
Rocanville Stone Millard County, Utah

Dear Mr. Ryzak:

Enclosed please find the information you requested in our phone conversation on March 31, 2005. The Division records show Mert Hamilton as the main contact person for the above-referenced mines and correspondence including any attachments would normally be sent to him. Copies of correspondence to others are usually only done as a courtesy and generally do not include the attachments. It is expected that you would receive the attachments from the main contact person.

Nevertheless, we have enclosed the Reclamation Contract (form MR-RC), the Reclamation Cost Estimate spreadsheet and the Newspaper Notice for the Tejon Quarries as requested. We have also enclosed the Cost Estimate spreadsheet for the Black Rock Quarry. You will notice that the estimate is not filled out, because we are still waiting for the review to be completed and the current plan does not have adequate information to complete the spreadsheet. Once we have adequate information in the reclamation plan we will complete the cost estimate.

You should also note that the formula for calculating the escalation is included on the spreadsheet. If you have questions regarding this, please contact Doug Jensen at (801) 538- 5382.

I hope this provides you the information you need. Please call if we can be of further assistance.

Sincerely,

Daron R. Haddock
Permit Supervisor
Minerals Regulatory Program
